Plus, its zirconia stain-resistant properties ensure a long-lasting finish that looks and feels natural.

Don't settle for anything less than the best when it comes to dental restoration products. Choose our Dental Zirconia Crown And Bridge product and give your patients the quality care they deserve!

Features:

Product Name: Dental Zirconia Crown And Bridge

Size: Customizable

Translucency: High

Material: Zirconia

Resistance To Fracture: High

Resistance To Staining: High

This Dental Zirconia Crown And Bridge is made of high-quality zirconia material, which is known for its high resistance to fracture and staining. The customizable size and high translucency of the product make it a popular choice among dental professionals. With this product, you can be confident that your patient's dental restoration will be durable and long-lasting.

Zirconia stain, zirconia stain, zirconia stain - these are not words you will have to worry about with this Dental Zirconia Crown And Bridge. Its high resistance to staining ensures that your patient's restoration will remain beautiful and natural-looking for years to come.

Durability	Long-lasting
Fit	Precise
Resistance To Fracture	High
Strength	High
Application	Dental Restoration
Resistance To Staining	High (zirconia stain)
Biocompatibility	Excellent
Size	Customizable

Applications:

One of the best things about this product is its ease of use. The precise fit ensures that the crown or bridge fits perfectly in the patient's mouth, making it easy for the dentist to install. This product is also biocompatible, meaning that it is safe for use in the human body.

ADS Dental Zirconia Crown And Bridge is suitable for a wide range of applications. It is commonly used for the restoration of damaged or missing teeth, helping to improve the appearance and functionality of a patient's smile. This product is also ideal for use in implant-supported restorations, providing a strong and long-lasting solution for patients.

The high fracture resistance of this product makes it perfect for use in situations where there is a high risk of damage to the crown or bridge. In addition, the zirconia material used in this product is highly resistant to staining, ensuring that the crown or bridge maintains its natural appearance over time.

This product is perfect for use in a variety of scenarios, including general dentistry, cosmetic dentistry, restorative dentistry, and implant dentistry. It is also suitable for use in both adults and children.

Overall, ADS Dental Zirconia Crown And Bridge is an excellent choice for dentists looking for a high-quality, easy-to-use, and long-lasting dental product. With its excellent biocompatibility, high fracture resistance, and resistance to zirconia stain, this product is sure to provide patients with a beautiful and functional smile for years to come.

Customization:
